Siri Varma Vegiraju

You have received new feedback on the submission, "Building a Network Telemetry Platform to minimize Security Threats".

Event: Conf42.com Platform Engineering 2024

Title: Building a Network Telemetry Platform to minimize Security Threats

Congratulations Siri Varma Vegiraju!

Your talk, Building a Network Telemetry Platform to minimize Security Threats, has been selected for Conf42.com Platform Engineering 2024.

We are really excited to have you, and we think your session will really help make Conf42.com Platform Engineering 2024 amazing.

Can you please confirm that will still be able to attend by visiting the link below?

<https://www.papercall.io/submissions/168850/confirm>

The conference is still quite some time away from now, your session is currently listed as a preview on our website. Please feel free to start working on your presentation, asking for company approvals, etc.

We will reach out with further details around a month prior to the event. You will then be asked to pre-record your session. We'll to send the recording instructions to the email address you provided with your papercall submission - please make sure you still have access to that inbox!

If you've submitted on someone's behalf - please make sure to transfer the info!

We sometimes end up in spam, please check there as well. If you don't receive anything from us until 3 weeks before the event, please ping me at mark@conf42.com or [connect via LinkedIn](#).

Thank you again for your submission and we really hope that you will accept our invitation to speak.

If you can't make it for any reason (vacations, hectic time, force majeure, etc.) - please don't worry. We don't blacklist anyone, so even if you can't deliver your session this time, we'd still be glad to have you in the future. Life happens!

Kind regards, Mark Pawlikowski, the main organizer of Conf42.com Platform Engineering 2024
